

STENCIL

Study visit: Officina Emilia

Monday, 24th January 2011
c/o Officina Emilia, via Tito Livio 1, Modena, Italy
15:30 - 17:30

The European STENCIL Network includes 21 members from 9 European countries, providing joint expertise to contribute to the improvement of science teaching, by promoting innovative methodologies and creative solutions that make science studies more attractive for students.

This European study visit, open to all interested teachers and schools, wants to offer to science education practitioners the opportunity to share experiences and learn from each other, in a peer to peer approach aimed at facilitating the transfer of good practices.

Study visit Programme

- | | |
|---------------|---|
| 15.30 - 15.45 | Presentation of Officina Emilia |
| 15.45 - 16.00 | Active presentation and visit of Officina Emilia “Museo-laboratorio”
Participants will take part to a guided visit of Officina Emilia “Museo-laboratorio”, in order to experience the space and the teaching methodologies practiced during the workshops OE supplies to students |
| 16.00 - 16.30 | Presentation of Officina Emilia Educational Services
Paola Mengoli, Educational Services Responsible, illustrates Officina Emilia Educational Services, and in particular the workshops supplied to students, describing the teaching methodologies applied and the educational goals |
